

AGRUPAMENTO DE ESCOLAS DE ALBUFEIRA

Agrupamento de Escolas de Albufeira.

Dear Sir/Madam

Ano letivo 2020/2021

We participated in this project for the 3rd consecutive year, we like these exchanges between different cultures; we want the project to continue and to evolve to other levels.

We are the library team of the Albufeira School Group, located in Albufeira / Algarve / Portugal. The Group has about 2680 distributed across 5 schools. Three schools are 1st grade and preschool, one of the 2nd / 3rd grades and one of the Secondary school.

In Portugal the education up to Secondary is free and of quality. At our school we have a Learning Support Center for students with specific needs. Children are accompanied from Early Intervention to Secondary Education.

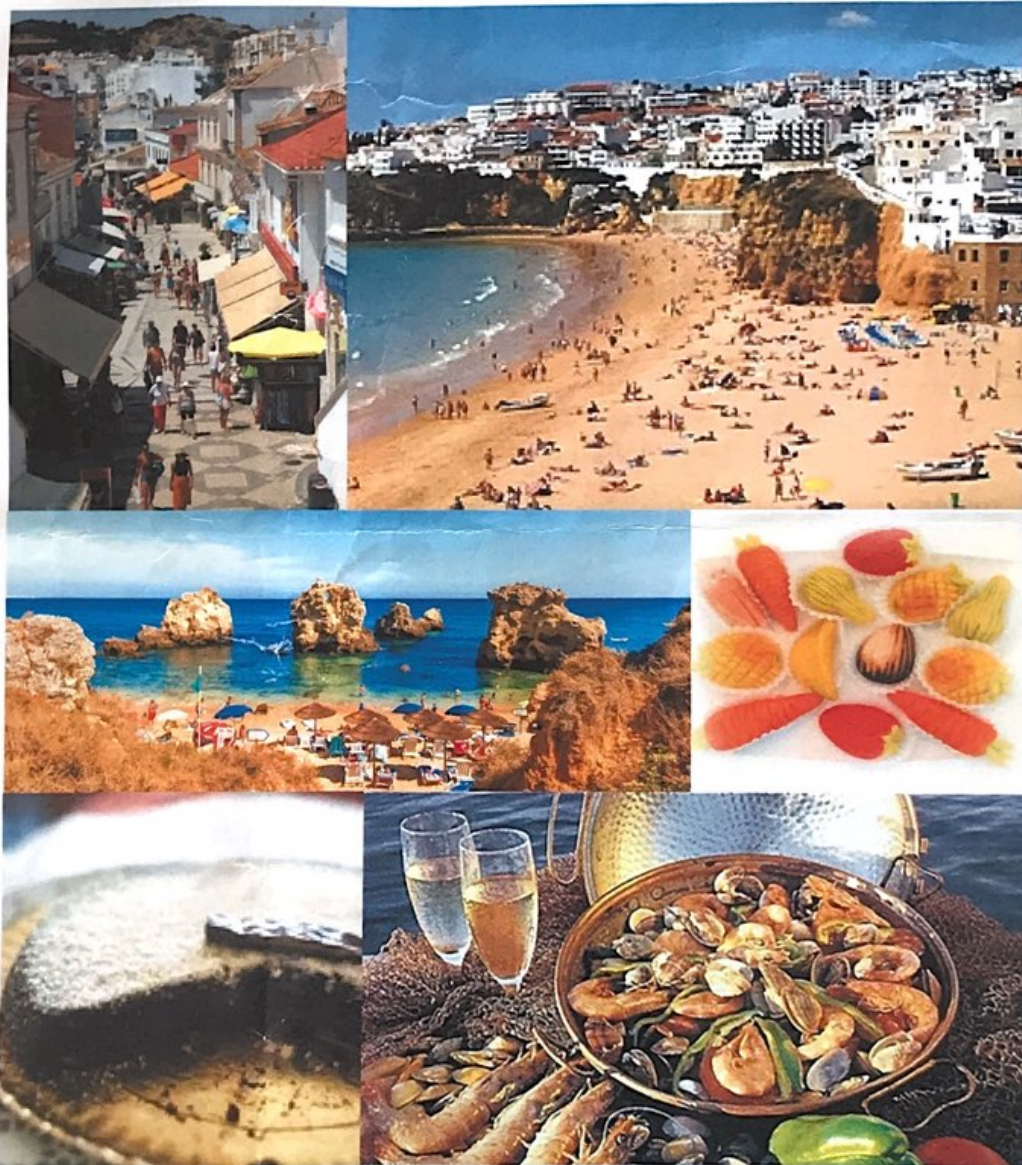

Accompaniment is done by teachers and specialized technicians in speech therapy / physiotherapy / swimming / meditation / mini golf and gardening among others.

All students live in or around the city, a few kilometers from schools.

The city lives on tourism and services, has about 52,828 inhabitants in the low season (November to March) and in the high season, quadruples. Our city is beautiful and has paradisiacal beaches. Our cuisine is very diverse in terms of fish and shellfish and sweets made from the fruits of our Algarve region, such as figs, carobs and almonds. Portugal is also known for having good wines and the Algarve is no exception.

We thank you for your letter and hope that our students' markers will please you.

Best regards
